First Challenge

**We are apparently still idiots.
Current policies put us on
course for 2.7 degree celsius
above pre-industrial levels.**

Co-funded by the
Erasmus+ Programme
of the European Union

Dude, don't be
such an alarmist.
I'm telling you, this
meteor stock is
hot!

Second Challenge

Breathing is nice

**Up to 80% of our oxygen comes from
life under sea**

Erasmus+ Programme
of the European Union

Co-funded by the
Erasmus+ Programme
of the European Union

Third Challenge

Having a place to live is nice

Co-funded by the
Erasmus+ Programme
of the European Union

Solution?

...

Sorry.

**Apparently, we cannot just grow gills
because we want them.**

I know, I'm disappointed too

Cross-section of landmass in the Maldives

Co-funded by the
Erasmus+ Programme
of the European Union

Alternative 3
Blue Infrastructure
Extra good, because
apparently even gills need
oxygen

A person is submerged in clear, blue water, making a heart shape with their hands. They are wearing a black snorkel mask and a red strap. The background is a deep blue, and the lighting is soft, creating a serene atmosphere. The text "So long and thanks for all the fish" is overlaid in white, bold, sans-serif font, with the word "fish" underlined.

So long and thanks for all the
fish
